Dear John Q. Sample,

Do you worry about the adverse effects of failures to comply with the codes or standards and the impact it may have on people and property? Do you worry about interpreting the codes correctly; about using the latest editions of the codes; about accessing the codes quickly when needed—wherever you are?

Well, you can stop worrying. The *National Fire Codes® Subscription Service All Access (NFCSS All Access)* gives you instant, worldwide online **access** to all of the current NFPA® codes, standards, and Handbooks. Approximately 300. To get this indispensable tool, just complete and return the enclosed Activation Form, order online at nfpacatalog.org/nfcsshb, or simply call us at 1-800-344-3555 (Monday-Friday, 8:30am-5:00pm EST). It's that easy. And you'll be glad you did.

"People ask me code-related questions every day, and to give them the right answers, I need access to all NFPA codes and standards. There's no room for guesswork and that's why I subscribe to this service."

Thomas W. Jaeger, P.E., President
Jaeger & Associates, LLC
Great Falls, VA

With *NFCSS All Access* you can do keyword searches. You will save an enormous amount of time and know that you have checked all of the codes for applicability.

"One of the things we like in addition to being up-to-date all the time is the fact that we can use the search engine and get appropriate hits on standards and codes that apply."

Ron Hein, Consulting Property Director
CNA Insurance, Chicago, IL

(Over, please)

No Internet access on the road? You can download PDFs of the codes you need and take them with you.

With the inclusion of the Handbooks in *NFCSS All Access* you get an even deeper understanding of the codes and increased confidence that you are interpreting the codes correctly. Complete, confident compliance.

"The additional information, diagrams, and advice provided in the highlighted sections of the handbooks allow me to make informed decisions about code applications with complete confidence that I'm in compliance."

Thomas M. McCauley, P.E.
Director of Engineering
Consolidated Consulting Corporation
Vero Beach, Florida

The original electronic *NFCSS* is still available but, of course, it does not include the valuable Handbooks.

You may argue that you don't need to subscribe to *NFCSS All Access* because you can buy and download the standards you need and buy updates when they change. That's very true as long as you monitor the status of the standards, 25% of which change annually, and buy updates in a timely fashion.

This seems like a lot of work. Wouldn't it make a lot more sense to leave all this monitoring and housekeeping to *NFCSS All Access* and spend your time helping people with code issues? Of course, it would!

So, don't wait; make your life easier and start your subscription to *NFCSS All Access* by simply mailing back the enclosed Activation Form, subscribing online at nfpacatalog.org/nfcsshb, or just calling us at 1-800-344-3555 (Monday-Friday, 8:30am-5:00pm EST). It's that easy.

Cordially,

C.A. Faber
